

Name: Celena Walker

Grade: 2020 graduate

School: Danell Cookman School of the Medical Arts

Career Aspiration: Pediatric Nurse

Celena participated in a virtual learning experience hosted by the First Coast Black Nurses Association. During this experience, medical professionals from across the First Coast shared what motivated them to go into the medical field, described details of a typical work day and answered general questions from the group. This experience also afforded Celena the opportunity to work on a small group assignment that was required to write a 10 page research paper, construct a PowerPoint presentation and present findings to the larger group.

Celena will complete her internship experience during the summer of 2021.
